

Could you please tell me who is responsible for the sad state of affairs of the Civil Station Co-operative Society?

***Dr. R. NAGAN GOWDA.**—We have 5,679 societies. Of them, there are some where we have noticed some irregularities and we are taking action on them. As you know, we have started intensive auditing of these societies recently and this is one of the societies that is being audited now. Hitherto, it was audited by a private firm. Now it is being looked into by the Department. Some irregularities in a few societies do not mean that there is slackness all over in the Department.

Sri V. M. MASCARENHAS.—Does not the very fact that for a period of 18 months no action has been taken against the management of this society, show that the Department is really careless and slack?

Dr. R. NAGAN GOWDA.—No, Sir. We are waiting for complete auditing of the society and immediately we get all the material we will take action on the people that are responsible for the irregularities in this society.

Sri V. M. MASCARENHAS.—Has it come to the notice of the Government that there has been defalcation recently in the Apex Bank where a representative of the Department is working?

Dr. R. NAGAN GOWDA.—There is an officer lent by the Department working. But no official information has come about irregularities in the Apex Bank.

Sri Mulka GOVINDA REDDY.—Out of 5,679 societies, how many are multi-purpose co-operative societies and out of the remaining societies, how many are functioning for different purposes?

Dr. R. NAGAN GOWDA.—I am sorry I will not be able to give that information immediately now. But on another occasion I have given that information.

Sri Mulka GOVINDA REDDY.—How many co-operative farming societies are there?

Mr. S P E A K E R.—They have furnished that also.

12-30 P.M.

Sri Mulka GOVINDA REDDY.—You stated that 1,297 Societies are not working. When were they started and why are they not working, Sir?

Dr. R. NAGAN GOWDA.—Enthusiastic people in villages come forward and say that we want a society and we have got to register it. Afterwards, their enthusiasm wanes; and after all these societies are successful only when the local people and private agencies take interest. The Department cannot do anything in the matter.
